

# SafeCircle SITTER Standards

## **Safety:**

Safety is each SafeCircle Sitters' 1st priority. Every SafeCircle Sitter has a current Paediatric First Aid and SafeCircle monitors the status of their certifications. They are capable professional babysitters who are able to act appropriately in an emergency.

## **Identification:**

All of our SafeCircle Sitters hold an ID card which they will present upon arrival to show that they have been SafeCircle approved and are the allocated babysitter for your booking.

## **Time:**

SafeCircle Sitters enjoy interacting with children through play and activities. Our sitters use their time with your children to engage them. TV time is kept to a minimum whilst your children are awake (unless directed by parents).

## **Texting:**

Talking or texting on the phone is limited only to emergencies while your children are awake. Our babysitters do not invite friends or visitors to your home whilst you are out. SafeCircle Sitters are professional throughout the booking!

## **Exit:**

When leaving a family's home, your SafeCircle Sitter makes sure that your home is as it was or better than when they arrived cleaning up after themselves and the children in their care.

## **Requested:**

SafeCircle Sitters are happy to be requested back by member families for future bookings. This can be done in your sitter preferences.
